Subject: Traffic Signal Modifications
State WIN: 022829.00
Location: **Benton**
Amendment No. 2

Dear Sir/Ms.:

Please make the following changes to the Bid Documents:

In the Plan Set:

On SHEET NUMBER 4 OF 6, TRAFFIC SIGNAL PLAN, under LIST OF MAJOR ITEMS, **DELETE** the second box, which Begins "FURNISH AND INSTALL CELL MODEM...". Make this change in pen and ink.

The following question has been received:

Question: For the Benton project (#022829.00) the spec includes a Field Monitoring Unit for remote communications. The Major Items List lists a GX450 modem. Are both devices required for this project?

Response: No. Upon researching the answer to this question and further internal discussions, the GX 450 modem shall be removed from the major items list. The Field Monitoring Unit includes an internal cell modem to provide for remote communications between the traffic signal controller/intersection to Maine DOT.

Consider these changes and information prior to submitting your bid on **July 10, 2019**.

Sincerely,

George M. A. Macdougall P.E.
